## ECLIPSE SOFTWARE-FULLSTACK

Internship contract

Jun. 2023 – Dic. 2023

- Successfully migrated a legacy desktop accounting system to a modern web-based platform, achieving 90% project completion.
- The migration included redesigning complex modules and ensuring strict compliance with Costa Rican tax regulations.
- Leveraged React.js, C#, .NET, API, SQL Server and Tailwind CSS to enhance the system's performance and user interface.
- Contributed to Agile development with Scrum practices, fostering collaboration in a cross-functional team.

## INNOVA SALES - FULLSTACK

Internship contract

Dic. 2024 – Present

- Currently working on migrating and restructuring an online medical appointment platform. This includes replicating existing views from scratch to ensure a smooth transition for users.
- Working on features like appointment scheduling, online messaging, and doctor search, improving interaction between patients and healthcare professionals.
- Implemented a REST API to integrate video calls, digital prescriptions, improving system efficiency.
- Redesigned the interface using Razor, HTML, CSS, and JavaScript, maintaining consistency and enhancing accessibility. Managing the database with SQL Server for secure data migration.
